

## 58 I PROFESSIONAL AUDIO/VIDEO TELEMETRY/TRACKING, RECORDING/REPRODUCING AND SIGNAL DATA SOLUTIONS

Category	Description
58 1	<p><b>Recording and Reproducing Video and Audio Equipment, Including Spare &amp; Repair Parts, and Accessories</b> - This SIN includes complete video and audio recording and reproducing systems as well as separate components of those systems. Included are recorders and duplicators for both analog and digital media including cassettes, cartridges and video discs.</p> <p>The video or audio recording system may include special effects generators including time and date stamping, picture in picture, closed captioning, text addition, character and symbol insertion and manipulation, audio voice over equipment. Also included are amplifiers, mixers, switchers, synchronizing components, and editing equipment.</p> <p>Mini Studio Systems and Components – Including training room and instructional systems, control room and studio control modules, multiple microphone and video stations.</p> <p>This SIN also includes video projection components including digital projectors, video walls, rear projection display screens, LED walls, LCD projectors, as well a control modules for controlling the video projection.</p> <p>Accessories include items such as cables, batteries, and sound booths.</p>
58 10	<p><b>Professional Audio/Video Services NEC</b> - Services associated with the professional communications equipment products not covered by SINs 58-8 and 58-9</p>
58 2	<p><b>Monitors and Monitors/Receivers, Including Spare &amp; Repair Parts, and Accessories</b> - Color or monochrome monitors, with picture tube, LED, LCD, or plasma screens. Includes monitors that operate on alternating current (AC) or battery, or both.</p> <p>Flat panel display monitors are included.</p> <p>Accessories include power and connecting cables, batteries and chargers, and mounting products.</p>
58 3	<p><b>Television Cameras, Color or Monochrome, Including Spare &amp; Repair Parts, &amp; Accessories</b> - Cameras may operate on alternating current, battery power, or both. The cameras are for professional industrial or broadcast purposes. Household cameras under SIN 219-13. The cameras can be fixed or portable, and may be for analog or digital recording. Cameras with separate heads are also included.</p> <p>Accessories include separate camera lenses, microphones, tripods, cabling,</p>

batteries, and lighting and screens designed to be used with cameras when recording.

- 58 4** **Audio Equipment, Including Spare & Repair Parts, and Accessories** - This SIN covers complete professional sound systems as well as components. Components include amplifiers, speakers, audio consoles, switchers, cassette recorders and players, cartridge recorders and players, compact disc recorders and players, and reel-to-reel equipment. Recorders/reproducers may include logging recorders and players and single or multi-channel recorders and players. Home type phonographs or stereo systems are under SIN 219-11. Accessories may include cables and microphones and computer equipment required to perform the function specified in the SIN.
- 58 5** **Closed Circuit and Other Surveillance Equipment, Including Spare & Repair Parts and Accessories** - This SIN covers entire CCTV systems and components. The system may include monitors, cameras, telescopic lenses, camera mounts and enclosures, audio components such as microphones, and control centers for managing single or multiple cameras. The CCTV system can use either hard wired or wireless methods to transmit information. This SIN also includes audio and video recording devices for use with CCTV systems as well as night vision and infrared devices designed specifically for surveillance and computer equipment and software required to perform the function specified in the SIN.
- 58 6** **Telecommunications Equipment, Including Spare and Repair Parts, and Accessories** - Items included in this SIN include both airborne and non-airborne telemetry and tracking equipment; radar equipment except airborne; underwater sound equipment; visible and invisible light equipment; laser equipment; recorder/reproducer sets – signal data (multi-application); wildlife and fish monitoring equipment; fiber optic and digital telecommunications equipment. Included are multiplexers, routers for video and other signals, broadcast receivers, demodulators, and switchers. Also included are transmitters, receivers, and transceivers for all frequency ranges including microwaves, modems, signal amplifiers, power supplies, and antennas as well as encoders, and decoders.
- Accessories may include batteries, cables and mounting assemblies or racks and computer equipment and software required to perform the function specified in the SIN.
- 58 7** **Ancillary Services** - To allow suppliers to provide services associated with their products, such as equipment set-up, assembly, installation, integration and training if required at the delivered location.
- 58 8** **Professional Audio/Video Assessment, Design, and Integration** - This SIN covers services associated with creating a professional quality audio/video studio. This includes assessment, requirements analysis, engineering, design, system integration, customization, programming and support services associated with professional communications equipment products. This may include site surveys, installation, testing, training as well as integration of current facilities, audio/video production and asset management needs, asset and facility security, and Section 508 compliance. This may include skills in a variety of positions including engineers,

programmers, project managers, technicians, installers, and designers.

- 58 9 **Professional Audio/Video Production** - Production services associated with professional communications equipment products, such as the temporary use of equipment and technicians to record presentations developed by the ordering agency. This may include skills in a variety of positions including engineers, programmers, producers, project managers, lighting and sound technicians, graphic designers.
- 58 98 **International Sales** - This SIN covers items for use only in foreign destinations.
- 58 99 **Introduction of New Products, Including Spare & Repair Parts and Accessories** - Included are new or improved products utilizing the same or similar technologies not otherwise classified, as well as already existing products or technologies not currently under any schedule program contract.

## Audio & Video Equipment

Category	Description
219 3	<b>Televisions</b> - Includes projection television, console, table models, and portable. Features may include HDTV ready, single/dual tuner, picture in picture and stereo audio. Televisions may have picture tube, LED, LCD or plasma screen. Accessories include wall or ceiling mounts and speaker mounts.
219 4	<b>Television for Hospital, Hotels and Motel</b> - This SIN covers televisions for use in hospitals, hotels, motels. The televisions shall be table top models or have provisions for mounting. The televisions for hospital may be capable of operating with a hardwired remote control. Mounting brackets can be included in this SIN.
219 9	<b>VCRs, VCP, DVD</b> - This SIN covers household type VCRs, video cassette players and DVDs. This includes 2 or 4 head VCRs for VHS format, video cassette players and recorders for other types of magnetic cassette formats such as Hi-8 etc. DVD recorders and players, dual deck duplicators for the VHS or other cassette formats.
219 10	<b>Television/VCR/DVD Combinations</b> - This SIN includes television/VCR and/or DVD combination units. The VCR may be either 2 or 4 heads. The unit may be stereo or monaural.
219 11	<b>Audio Components</b> - This SIN covers household type audio components such as audio racks, shelf systems, multiple disc changers, home stereo systems including surround sound, cassette players and recorders, CD players and recorders, clock radios, desktop stereo systems, turntables, receivers, tuners, MP3 players, portable tape players, and portable CD players.
219 12	<b>Television and Audio Accessories</b> - Includes headphones, TV/video carts and cabinets, ceiling and wall mounting systems, pedestal trays, tripods, digital satellite systems, projection TV protective shields, cables and connectors.
219 13	<b>Hand Held Camcorders</b> - This SIN covers a wide range of hand held camcorders for personal and professional use. This SIN covers all recording

format types including VHS, 8 mm, Hi-8, MPEG, DVD, mini DV, etc. Included with the camcorders can be batteries, battery re-chargers, bags, cables, and additional memory storage if the storage device is unique to the camcorder.
